

Meet the Catit PIXI Mio

If it looks like a cat and sounds like a gentle meow, it must be the Catit PIXI® Mio. The name “Mio” means “mine” in Italian, echoing both a soft meow and the feeling of something lovingly claimed. This cozy little retreat is designed to become your cat’s very own favorite place.

Comfort at home, confidence on the go

The Catit PIXI® Mio cleverly combines a stylish cat bed with a convenient carrier. Ideal for quick outings such as vet appointments, it offers a secure and comfortable space for occasional travel. When at home, its modern design blends effortlessly with your décor, transforming into a cozy resting spot your cat can enjoy every day.

Thoughtfully designed for everyday feline life

The Catit PIXI® Mio provides a sturdy and comfortable environment for your cat. It features safety latches at the front and back, and generous ventilation openings that allow for plenty of airflow. A soft, padded cushion and removable transparent front door complete this versatile carrier-and-bed combination.

Secure rear latch with lock

A sturdy toggle latch and integrated lock at the back ensure the PIXI® Mio remains safely closed during transport.

360° access with removable top

The rear section opens up to allow easy access, making it simple to place or remove your cat from the carrier.

Detachable front window

The clear front panel can be completely removed when you want to transform the carrier into a cozy cat bed.

Easily switch between bed and carrier

Transforming your Catit PIXI Mio is quick and simple. To convert it into a bed, unlock the two sliders at the top of the front panel and open it. Press the grey cat-nose button and lift the panel out. When you need the carrier again, slide the window back into place and secure the sliders.

Add your cat’s favorite blanket to the soft cushion to create a comforting space filled with familiar scents. You can also choose a colorful blanket to match your own style.

Comfortable, ventilated, and easy to carry

The durable hard shell features multiple ventilation openings to keep air circulating, while the ergonomic handle makes lifting and carrying effortless. Inside, the included padded cushion offers a soft and inviting place for your cat to relax.
